

Cosmos Clock

No ordinary timepiece, our *Cosmos Clock* features 16 pounds of solid optic crystal and an equal amount of art to go with it. The reverse side features the world painstakingly etched in multiple depths and textures, while the front highlights three clocks that suggest passing satellites and the expression of time. Choose three cities of your choice to be etched encircling the clocks and we'll even set the corresponding times for you. Another J.Charles original from the company that is clearly more imaginative.
