Arabesque

Named for the artful ballet posture, the *Arabesque* is an interesting play on cubes that appear to defy gravity as they ascend through space. Made of pure optic crystal, this contemporary sculpture shatters its surroundings and then reassembles it into an abstract design of cubist fashion. Tall, heavy, and eye-catching, this Theme-Award makes a statement about brilliant individuals whose vision and fire make the impossible possible.

A romance card elaborating this theme is included for your presentation. Another J.Charles Theme-Award original.
