Home & Office

J.Charles makes doing business *beautifully simple* with straight-forward pricing and consistent, reliable execution.

## *Beautifully simple!*

Our logo and two-word tagline expresses all you need to know about J.Charles. Born of a *less is more* approach, our well-designed products confirm the beauty that resides in simplicity. This same philosophy also lives on through our acclaimed customer service. We pride ourselves on taking the complexity out of doing business so that ordering is a pleasure, never a hassle.

J.Charles was formed in 1994 as a company that would focus on designer glass and crystal for the gift and recognition industry. I named the company for my father who taught me things like the art of glass engraving as well as the art of keeping it simple.

That's because he, himself, was a *beautifully simple* guy. He had no time – in business or life – for making things complicated. Though it has been 10 years since his passing, his passion for simplicity and worshipping the customer lives on at J.Charles.

Though referred to as the “Bossman” by those at J.Charles, he was hardly what you would call a bossy kind of guy. Actually, he was pretty cool. Even when I was a kid I thought he was cool, as he was the only parent I knew who liked The Beatles!

Thanks to the Bossman, we presently own and occupy a very modern 50,000 square ft. facility in northern Kentucky, just across the river from Cincinnati. When I arrive at work every morning, I see a beautiful building that rests on a foundation built of my father's sweat equity.

Now in our third generation, my two sons, Chuck and Jeff, are grabbing the reins as I ease my way to part-time. It makes me proud to know that the Bossman's philosophies are in their DNA. It tells me I can step away and the customer will always come before the bottom line.

Of course, our success over the years would not be possible without what I am sure are our two greatest assets: awesome employees and awesome customers!

J.Charles currently employs 50 of the planet's greatest human beings. Their professionalism and enthusiasm for our mission is more than commendable. They laugh at all of my jokes – no matter how many times I've repeated them – and they're the reason I can't wait to get to work every morning.

Equally important – **our customers!** Without your patronage, everything would cease. We are forever grateful to you for our paychecks, our company cookouts (especially the beer), our health insurance, etc., etc. Thank you for all that you do for J.Charles, for the confidence you place in us, and most of all, thank you for your friendship. It is our belief that taking care of you is what makes good things happen – just another one of those *beautifully simple* things we learned from the “Bossman.”

Sincerely,

Barry C. Dyas  
President

# JColor

## Digital Color Printing

### FULL COLOR IMAGES

Direct print any full color image to a wide selection of awards and gifts. Display photo quality prints of anyone or anything in vivid color.

### COLOR LOGOS AND COPY

See your logo how it was meant to be seen: in full color! Add logos, copy, and any other art to an award for a unique look that's sure to stand out.

### UV-CURED INKS

Get it quick. Our inks are instantly cured using UV light. No drying time means your order can ship fast.

# Add A Splash Of J.Color

For those who demand recognition that is colorful, we give you J.Color!  
With J.Color, your options are endless. Landscapes, cityscapes,  
portraits, teams, products... nearly anything is possible!

## J.Color Showcase & Info

The J.Color digital printing process is available on any product with a flat, level, uniform surface.

To ensure the best possible print for your products, all artwork should be sent in vector format.

Non-vector artwork is also accepted and should be at least 150 dpi (300 dpi recommend).

TIFF or JPG files are preferred.

Imprinting is done via UV-cured inkjet printers. Pricing includes one location only. Second locations are \$9.50 (C).

You can also add a print to compliment any etching for \$9.50 (C) per location, per item as well.

While we attempt to match your colors as close as possible, exact color matches are not guaranteed.

J.Color is available on any item with "Digital Print" listed in its Imprint Types section. More examples are shown throughout the catalog, and are labeled with this graphic:

**DIGITAL PRINT**

## **NEW!** Brand Shapes

### *Custom Fabricated Acrylic Awards*

Competitively priced acrylic awards that are digitally printed and custom cut to match your brand and/or theme.

Step

1

### Order

Submit your PO with design requirements and any supporting art files, i.e., logo, brand guidelines, images, award copy, etc.

Step

2

### Concepts

A designer will go to work and create two design concepts for your review within 1–2 business days.

Step

3

### Selection

Choose your favorite!  
Want to see more ideas? We will create two additional designs for \$60 (C).

Step

4

### Celebrate!

Leave the rest to us. We will ship your custom, one-of-a-kind award within 5–9 business days.

Want a completely custom award, but don't have the budget or time for expensive mediums like crystal, stone and metal? Brand Shapes by J.Charles is the answer! These awards, made of optically-pure acrylic, are digitally printed in vivid color, then cut and polished to any size and shape using a laser. Our talented designers will create two concepts based on your brand and/or theme, **FREE OF CHARGE!**

## "In The Spirit of Frank Lloyd Wright"

Designs by

### Susan Jacobs Lockhart

of the Frank Lloyd Wright Foundation

In Spring Green, Wisconsin, stands one of our nation's architectural treasures. It is the work of America's most innovative and beloved architect and designer: Frank Lloyd Wright. Named Taliesin, a Welsh word meaning "shining brow," this complex served as his personal residence as well as his design studio and school, beginning in 1911.

Though Mr. Wright died in 1959, his school and studio thrive at Taliesin and Taliesin West. More importantly, the spirit and tradition of his genius lives on at Taliesin through the institution he founded, the Frank Lloyd Wright School of Architecture.

One distinguished product of this prestigious school is Susan Jacobs Lockhart. Ms. Lockhart's association with Taliesin began in 1958, and since 1964 she has been a staff member of both Taliesin Architects, the successor firm to Frank Lloyd Wright's studio; and the Frank Lloyd Wright Foundation which Wright established in 1940 to preserve and enhance his life's work.

Prior to this time, she received her degree in Art Education at the University of Wisconsin-Madison, studied for one year at the Academia di Bell Arti in Rome, and five years at the Frank Lloyd Wright School of Architecture. She presently teaches a course in "Nature Patterns-Sources of Design" at the school.

It is with great honor that J.Charles Crystalworks has commissioned Susan Jacobs Lockhart to design "In The Spirit of Frank Lloyd Wright"; for who could possibly be more suited to such a task? Her long association with the school certainly bespeaks the grammar of the Frank Lloyd Wright tradition. Her use of abstract and natural forms are resonant of the organic style which Mr. Wright employed in his architecture and decorative designs. As a child, Ms. Lockhart was raised in two Wright-designed homes commissioned by her parents.

Susan Jacobs Lockhart is an institution within an institution. An inspired artist in her own right whom

we dare not give too much direction. Excuse us if we broke the rules and ignored the rigid design formulas of the marketplace; anything else would have compromised her creative talents.

We feel the results speak well of our approach. Her "light sculptures" as she appropriately refers to them, are harmonious in movement and depth. The use of organic patterns upon such modern architectural shapes remain warm and soulful. A less extraordinary artist could not arrange such form and media without austere results.

One can only conclude that the spirit which exists at Taliesin and the Wright-designed home where she spent her early years, has nurtured Ms. Lockhart's soul and flows throughout her art.

All awards are signed by the artist and a \$10 contribution will be made to the Frank Lloyd Wright School of Architecture on behalf of your purchase. A romance booklet about the award and your donation is included for your presentation. Thank you for supporting this noble cause.

#### Artist's Statement

"My creativity continually finds exciting opportunity along the path of 'seeing in the abstract.' The endless geometric patterns in all natural forms are my inspiration, as they were to Frank Lloyd Wright, and their resonance tells a story in color and form, touching each viewer in an individual way to excite, uplift or challenge.

The interrelatedness of all parts of our planet is not by chance and the powerful, uniting geometries that give shape to the snowflake, also give shape to the cells of our bodies. The transformation of these geometries into designs is my art."

*Susan Jacobs Lockhart*

## General Information

### Artwork

**Etching:** To ensure the best possible etch for your products, all artwork should be black and white vector art. Ideal formats include **.ai**, **.eps** and **.pdf** created in Adobe Illustrator. Artwork that is placed or linked into these documents do not meet these requirements. Artwork should be created to hold a minimum of a 1 pt. line weight.

(1 pt line weight)

---

**Printing:** To ensure the best possible print for your products, all artwork should be CMYK and at least 150 dpi. 300 dpi is recommended. Artwork dimensions should be sized for the area where it will be printed. Scaling artwork is not recommended as it can introduce artifacts/pixelation thereby reducing the quality of the printed imagery.

**Fonts:** Simple, bold sans-serif fonts are recommended. Many serif and script fonts contain marks that will not etch properly. If copy is sent with artwork, remember to send it in outlines or accompanied by the font file. Small marks such as registration ®, copyright © and trademark ™ need to be enlarged, deleted or turned into a dot.

#### Recommended Fonts:

<b>Sans-Serif:</b>	Lucida Sans	<b>Gotham</b>	Arial	(10 pt minimum)
<b>Serif:</b>	Palatino	Minion Pro	Stone Serif	(12 pt minimum)
<b>Script:</b>	<i>Mural Script</i>	<i>Rose Round</i>	<i>Vivante</i>	(14 pt minimum)

Artwork that does not meet these requirements, or needs modification to ensure a quality imprint, will have an art charge at a rate of \$60 (C) per hour. If art charges will be incurred, customer service will notify you prior to set-up.

Emailing Art: Send to: [art@jcharles.com](mailto:art@jcharles.com) – Please compress files prior to sending via email.

### Brand Shapes (Laser Cutting)

Pricing is calculated by drawing a rectangular border around the artwork. The total area of the rectangle is used to determine the appropriate pricing tier. Orders with less than 10 pieces per design will incur a \$20 (C) less than minimum charge per design.

Laser cutting acrylic can produce a slightly wavy edge due to heat generated by the laser. This is more visible on thicker pieces. **Please note that this is inherent to the process and not considered a defect.**

### Cancellations

Cancellations must be submitted in writing via fax or email. No cancellations on items already produced. If an order is cancelled before any proof/artwork has been started, there will be no charge. A charge of \$40.00 (C) will apply to any order that is cancelled after a proof has been prepared or if there is no response to a proof for over 90 days.

## Confirmation

Orders are promptly acknowledged via email. Please review the acknowledgment carefully for any discrepancy. **Our acknowledgment and/or your approval supersede all terms on the customer's PO unless contested prior to the production of your order.**

## Consumer Products Safety Information Act

The Consumer Products Safety Information Act (CPSIA) sets rules and guidelines for all children's products. J.Charles sells no products intended for use by children and therefore is not subject to CPSIA regulations. For more information on CPSIA guidelines, go to: [www.cpsc.gov](http://www.cpsc.gov).

## Co-Op Programs

Use catalog end-quantity for pricing. Use catalog beginning quantity for less than minimum orders. Please mark all orders "Co-op" to assure proper billing. Send a copy of the brochure or link to the website in which the item(s) will appear.

## Copy Changes

There is no additional charge for copy changes on award items. Page will indicate if copy changes are free. All other items are \$7.50 (C).

## Credit Terms

Strict 30 days net for qualified accounts only. Accounts consistently past due, or those not eligible for an open account, will be set-up as prepay customers. COD orders are not accepted. We accept VISA, Mastercard and American Express.

## Drop/Split Shipments

There is a \$10.00 (C) charge per destination after the first destination, plus actual shipping cost. Names and addresses must be provided in Excel per our specifications. Please contact customer service for the Excel template file or download it at: [www.jcharles.com/downloads/drop-ship](http://www.jcharles.com/downloads/drop-ship).

## Foreign Shipments

Customers must choose a carrier and provide an account number for billing. J.Charles is not responsible for researching and quoting shipping companies. There is a \$25 (C) service charge per destination. The customer must establish declared value for the air bill. If value is not stated on the PO, we will use catalog pricing. Any duties, taxes, etc. charged back to us will be billed to the customer; these charges may be billed 90 days or more after shipment.

## Freight Quotes

We will offer freight quotes, however we cannot be responsible for the accuracy of estimates, as carriers are rarely consistent from the estimates to the actual charges.

## Holiday Production

For all orders with proof approval by December 1, we guarantee shipping (not delivery) by December 15. Please be aware that expedited freight charges may occur during the holiday season.

## Insertions

Contact customer service.

## Inventory

J.Charles makes every effort to maintain sufficient quantities to meet product demand; however, all orders are subject to product availability. Please check with customer service or use the inventory lookup tool on our website.

## Mailers

Items can be packaged in shipper-safe mailers for an additional \$8.00 (C) charge per mailer.

## Minimums

There are no minimum quantities for any item. However, orders totaling less than \$67 (C) excluding freight will incur a \$20 (C) small order handling fee. Does not apply to co-op programs (see section titled "Co-Op Programs" for more information).

## Monogramming

Monogramming is available for the majority of our items with no set-up charge. Include with your order the list of initials and style desired. Contact customer service for further information.

#1 Casual

#2 Roman

#3 Panel

#4 Diamond

#7 Harlequin

#8 Filigree

#11 Ensignia

#20 Script

## Office Hours

Our office hours are from 8:00 a.m. to 5:00 p.m. EST M-F.

## Overruns & Underruns

We ship exact quantities.

## Packaging

All items (except bulk items) are packed in attractive gift boxes suitable for giving. See page 238 for images and descriptions.

## Personalizations

There is no additional charge for personalizations on award items. Page will indicate if personalization is free. All other items are \$7.50 (C).

## PMS Color Matching

We can attempt to match PMS colors when digitally printing or color-filling an item. The cost for a PMS color match is \$60 (C) per color, per order. **Please note that any match is considered an approximation; exact matches cannot be guaranteed.**

## Plain Merchandise

For blank merchandise, contact customer service for pricing. There is a 15% restocking charge on all returned plain merchandise. Returns are not accepted without prior authorization.

## Pricing

All prices listed in this catalog are effective through September 1, 2019.

## Product Quality

Etched items are all hand-etched via sandblasting. Variations in texture may occur and are not considered defects. Due to the various processes of glass and crystal manufacturing, please be aware that bubbles, flow lines, chill marks and other variances are acceptable and not considered defects. For specific information on each item, please refer to the item, then refer to our Materials Reference guide on page 242. **\*\*All dimensions shown are approximate and may vary slightly from piece to piece\*\***

## Production Time

Please allow approximately 5–9 business days after proof approval to produce a typical order. Unusually large or complex orders may require additional working time and will be estimated on an individual basis. **Ship dates cannot be guaranteed for orders that are held up due to credit issues, lack of artwork, art approval, etc.**

## Proofs

No-charge digital proofs are provided for all orders, even exact repeat orders, unless otherwise requested, time permitting. Due to the unique production cycle of recognition products, and to allow us to produce rush orders, your proof will arrive approximately one business day after your order acknowledgment. **Proofs must be approved as soon as possible to prevent any delays regarding ship date.**

**Production Proof:** A production proof is an imprinted proof of an in-house order sent for approval prior to production. Production proof cost is determined by total quantity ordered. Please allow approximately 5–9 business days for production after approval.

**Virtual Proof:** See section titled "Virtual Samples" on page 235.

## Proposition 65

**WARNING:** This product can expose you to chemicals including lead and lead components, which are known to the State of California to cause cancer and birth defects or other reproductive harm

**Lead Crystal:** Proposition 65 requires us to warn California residents that consuming food or beverages that have been kept or served in lead-crystal products, or handling products made of lead-crystal will expose you to lead or lead components, a chemical known to the State of California to cause cancer and birth defects or other reproductive harm. Items containing lead-crystal are labeled with the Prop 65 warning on the product page.

## Random Samples

Use end-quantity (A) for pricing. Random samples must be ordered before 1:00p.m. (EST) to ship that day. Samples requested with specific logos are not considered random samples.

Random samples can be sent on a 30-day memo bill when individual samples (not the total order) net \$25 or more. Memo bill items must be returned within 30 days in order to receive a credit on product (not freight). Memo billing does not apply to spec samples or production proofs.

## Returns, Replacements & Claims

No returns will be accepted without prior written approval. Inspect all contents of your shipment immediately. Requests for returns or replacements must be filed with J.Charles within 7 days.

All claims for breakage must be made by receiver with the freight carrier. **Receiver must save outer carton(s) as well as inner contents and notify carrier immediately for prompt inspection.** Title to goods passes to the purchaser at F.O.B. point and all recourse for damaged goods rests with the carrier and not J.Charles.

**J.Charles can only guarantee safe delivery to the original shipping address. We are not liable for damage to any items that are reshipped by the recipient.**

## Rush Orders

Rush orders are accepted, when possible, based on production availability. **There is no additional charge for rush orders. However, expedited shipping may be necessary.** Contact customer service for available production time.

## Set-Up Charges

There are no logo set-up charges as long as artwork is submitted per our guidelines (see section titled "Artwork" on page 230). If art is not provided to our specifications, an art charge of \$60 (C) per hour will apply to "clean-up" the art. If art charges will be incurred, customer service will notify you prior to set-up. Note: Copy changes and personalizations are not considered set-up and charges still apply.

## Shipping

All orders are F.O.B. Northern Kentucky. The default shipping method is UPS Ground prepaid with freight charges added to the invoice. A standard selection of expedited services are available upon request.

Orders can be shipped via FedEx if a FedEx account number is provided.

There is an \$8.50 (C) charge for using a third party UPS or FedEx account for billing.

## Secondary Locations

For a single imprint in a secondary location on a single item, the cost is \$6.50 (C) per location, per unit.

## Secondary Imprints

For more than one imprint method on a single item (e.g., both etching and printing), the cost is \$9.50 (C) per method, per unit.

## Spec Samples

Use end-quantity pricing for cost of item plus freight. Please allow 5–9 business days for production.

## Trademarks

All liability for required trademarks on submitted art and copy rests solely with the customer and not with J.Charles. It is accepted by J.Charles as being in full compliance with all laws regarding copyright, patent, trademark or any similar protection. Pictured products, graphic designs and logos only represent our ability to duplicate art and to illustrate our imprinting techniques. These designs are not available for use or sale unless expressly authorized by their owners. No product endorsements should be inferred.

For a complete, current list of restricted logos, visit: [www.asicentral.com/unauthorized-logos/](http://www.asicentral.com/unauthorized-logos/)

## Virtual Samples

Virtual samples with up to two revisions are provided at no charge if proper artwork is provided (see section titled “Artwork” on page 230). Additional revisions may be subject to an art charge at a rate of \$60 (C) per hour. You may also create your own virtual proof on any product page on our website at [www.jcharles.com](http://www.jcharles.com).

## Color-Fill

Color-fill is available on most items in our catalog for \$8.00 (C), per color, per item, per location. Choose from the color palette shown below. All marble and granite items include color-fill as shown at no extra charge.

PMS colors can be “approximated” for \$60 (C) per order, regardless of order size. Note that the \$8.00 (C) per piece, per color, per location charges still apply. Please understand that an “exact” match is typically not possible, but we can usually achieve your color(s) within a couple of shades. The color matching fee is a one-time charge and will not occur on reorders.

Rush orders are not available when color matches are required. Please allow additional time for a proof and up to 10 business days for your actual order.

Please note, FDA regulations do not permit color-fill on items to be used for consuming food or drink.

**Color swatches are approximate, and may vary slightly from actual color-fill paint.**

## Designer Packaging

J.Charles believes that quality packaging is important to an aesthetically pleasing presentation. That is why you'll find all of our glass and crystal boxed in a manner that is commensurate to our quality products.

To find out how your selection will be packed, refer to the packaging reference on each item page. These boxes are not suitable for reshipping. Please note that items listed as bulk packed are not boxed individually and are packed in bulk cartons with cells separating each item. The following are brief descriptions of our various types of packaging.

### Style A

This patented designer gift box has a self-locking system as just one of its many attributes. The two-toned exterior boasts blue and silver laminates, while the bottom interior is lined in black velour for maximum impact of your logo. Guaranteed to enhance the perceived value of your selection, a finer gift box simply does not exist.

### Style B

This gift box will enhance your gift in a way that standard brown or off-white corrugate cannot approach. The bleached white (not off-white) interior brightens its contents while insuring that your gift arrives safely.

### Style C

This gift box will enhance your selection in a way that standard brown or off-white corrugate cannot approach. Each award is wrapped in white tissue then over-wrapped with a decorative honeycomb wrap that insures the safe arrival of your award. The bleach white (not off-white) interior brightens the contents while coordinating with the overall designer look. Note that some of our pieces have platform inserts (or no insert) verses the tissue and honeycomb wrap shown.

### Style D

This two-toned gift box features blue and silver laminates highlighted by a square silver button on top. The telescoping lid covers all but the very bottom, exposing a silver band for a designer look and snug fit. The interior is lined with luxurious blue satin. Aesthetically pleasing and extremely sturdy, these boxes will surely be reused by their recipients. Positive comments guaranteed!

### Style E

This gift box will enhance your selection in a way that standard brown or off-white corrugate cannot approach. The bleach-white corrugate (not off-white) interior brightens contents while coordinating with the designer look.

### Style F

This two-toned gift box features blue and silver laminates highlighted by a square silver button on top. The telescoping lid covers all but the very bottom, exposing a silver band for a designer look and snug fit. The interior is also lined in blue and silver and is equally luxurious. Please note that some items may require over-wrapping in our decorative honeycomb wrap or tissue. Aesthetically pleasing and extremely sturdy, these boxes will surely be reused by their recipients. Positive comments guaranteed!

## Additional Packaging:

### *Bar & Wine Gift Sets*

3-5 Piece Bar & Wine Sets  
(see page 18)

### *Traveler Series*

Custom Labeled Drinkware Sets  
(see page 8)

## Custom Labeling

Looking to brand your gift or award? J.Charles offers you the ability to do just that! One color or four, simply submit your logo in vector format and J.Charles will apply labels to your gift boxes. Please see page 238 for boxing style information.

Note that on boxing styles A and D, a transparent label is applied to the raised silver square. On styles B, C, and E a silver foil label is applied to the top left corner. Minimum order 24; less than minimum charge \$20 (C). **Please note we cannot do exact PMS color matching**, but will attempt to get as close as possible. To find out how your selection will be packed, refer to the packaging reference on each item page.

### Styles B, C, & E

### Styles A, D, & F

DESCRIPTION	DIMS (L" x W")	24-99	100-249	250+	3C

Custom Clear Label (Package Styles A, D, & F)	1.5 x 1.5	\$2.00	\$1.90	\$1.80	

## Imprint Methods

We currently offer four decorating techniques: deep etch sand blasting, color-filling, J.Color digital printing, and laser engraving. Over the years we have phased out dated imprint methods, like wheel cutting and rotary engraving, to focus on providing the highest quality and fastest turnaround.

### Deep Etch Sand Blast

This is our bread and butter. Our proprietary sand blasting technique allows us to aggressively etch crystal, glass, and stone. We choose to use a heavier grit which results in a deeper etch, unmatched sparkle, and a much happier customer!

### Color-Fill

This process expands upon our deep etch. Once the product has gone through the sand blasting process, the etching is permanently filled in with pigment. We have 20 available colors including gold, silver, and bronze metallics.

### J.Color Digital Printing

When you need a wide spectrum of color, you can't beat a quality digital print. Our flatbed ultraviolet inkjet printer can print full-color images on any surface; including water, although we haven't found a great use for this yet! This imprint technique is ideal for photos and colorful, vibrant artwork.

### Laser Engraving

Our lasers can engrave digital artwork with pinpoint accuracy on pretty much any surface. This is the ideal method for imprinting complex designs on plastics, woods, and various metals. The laser is also great at making intricate cuts on certain materials – see our "Brand Shapes" section on page 6 for more information! Please note that laser engraved metal leaves a charcoal colored imprint and has no depth.

## Materials Reference

J.Charles wants you to be happy with your order. Knowing that satisfaction is relative to expectations, we have compiled the following descriptions intended to help you understand what you can realistically expect when you receive your order. Every item in the J.Charles catalog falls into one of these categories and is referenced in the materials section on each product page.

### 24% Full-Lead Crystal

Full-lead crystal ranges from colorless to a subtle blue tint. Excellent sparkle. Larger pieces in this category are exceptionally heavy due to lead content. Glass will ring when pinged. Expect minor bubbles and swirls that are inherent to full-lead crystal. Variations will occur on styles with hand-cut patterns due to its hand-crafted nature. Not suitable for hot liquids.

### Acrylic

J.Charles exclusively uses cast acrylic for all products. Cast acrylic is an optically clear thermoplastic. Lightweight. Shatter-resistant. Excellent clarity. Pure and colorless. Dimensions may vary slightly due to polishing. Acrylic is a generic term for trade names: Crylux, Plexiglas, Acrylite, Lucite, and Perspex.

### Aluminum

Machine-cut aluminum. Brushed finish is bead-blasted or radial-sanded. Dimensions are consistent.

### Art Glass

Mouth-blown and formed by hand. Expect bubbles and swirls that are inherent to mouth-blown and fully hand-crafted glass. Dimensions and weight will vary from piece to piece. Designs and patterns within the glass may vary significantly. Colors are brilliant. Weight is substantial.

### Bent Glass

Machine-made. Small bubbles and other imperfections may occur. Dimensions are consistent. All planes are highly polished. Glass has a deep jade tint. The thicker the piece, the more pronounced the jade color.

### Break-Resistant Crystal

Small imperfections may occur but are not very common. Dimensions are consistent. Crystal walls are medium weight. Crystal is colorless. Excellent sparkle. Drinkware is dishwasher safe. Stemware is dishwasher safe providing the dishwasher is not too crowded. Not suitable for hot liquids.

### Ceramic

Expect minor blisters or other imperfections inherent to ceramic products. Dimensions may be slightly inconsistent. Actual colors may vary from catalog photos.

### Chrome, Copper & Bronze-Plated Resin

Resin items are formed in a mold and then chrome, copper, or bronze-plated. Small imperfections are the nature of this process and may occur.

### Chrome & Gold-Plated Metal

Metal items are formed in a mold and then chrome or gold-plated. Substantial weight. Small imperfections are the nature of this process and may occur.

## Color Optic Crystal

Machine-made. No imperfections. All planes are highly polished. Available in a variety of colors. Excellent clarity and sparkle. Exceptionally heavy. Black and white optic crystal is very opaque. Dimensions may vary slightly.

## Granite

Though more consistent than marble, granite is a natural material and by its very nature is not perfect or consistent from piece to piece. Expect minor variations in color and patterns. All granite products are hand-crafted and slight variations in size and shape will occur.

## Hand-Blown Crystal

Expect minor bubbles and swirls inherent to hand-blown crystal. Dimensions and weight will vary from piece to piece. Crystal may have a very subtle aqua tint. Very good clarity and sparkle. Substantial weight. Variations will occur on styles with hand-cut patterns due to its hand-crafted nature. Not suitable for hot liquids.

## Jade Crystal

Machine-made. No imperfections in the glass itself. All planes are highly polished. Glass has a deep jade tint. The thicker the piece, the more pronounced the jade color. Good clarity. Thicker pieces in this category have substantial weight.

## Machine-Blown Crystal

Small bubbles and other imperfections are rare and not considered defects. Dimensions are consistent. Crystal walls are thin. Crystal is colorless. Excellent sparkle. Not suitable for hot liquids.

## Machine-Made Glass

Small bubbles and other imperfections may occur and are not considered defects. Dimensions are consistent. Not suitable for hot liquids.

## Marble

Marble is a natural material and by its very nature is not perfect or consistent from piece to piece. Expect variations in color, texture, and veining; small surface cracks may also occur. All marble products are hand-crafted and slight variations in size and shape will occur.

## Optic Crystal

Machine-made. No imperfections. All planes are highly polished. Pure and colorless. Excellent clarity and sparkle. Exceptionally heavy. Dimensions and bevels may vary slightly and are not considered defective.

## Starphire Crystal

Machine-made. No imperfections in the glass itself. All planes are highly polished. Glass has a slight aqua tint but is not nearly as green as jade crystal. Very good clarity and sparkle. Substantial weight.

## Tempered Glass

Machine-made. Small bubbles and other imperfections may occur and are not considered defects. Dimensions are consistent. Clear mugs may have a slight aqua tint. All tempered mugs will have a seam opposite the handle. Substantial weight. Durable. Safe for hot drinks and the dishwasher.

## Wood

Wood is a natural material and by its very nature is not perfect or consistent from piece to piece. Expect variations in color and texture. All wood products are hand-crafted and slight variations in size and shape will occur.
